The Oceanic Co's steamer, Mariposa, Captain dates to the 1st instant. The following is a sum- | dent. mary of the most important telegrams: Ten houses and nine storerooms were burned at Annapolis on 22d Oct. Loss \$43,000. Two persons were killed-Charles Legg and his

Ottawa, October 25 .- The Corporation of Ottawa presented an address to the Marquis of Lansdowne this afternoon, extending a hearty welcome to himself and the Marchioness, extolling his high office and abilties and expressing unchanging loyalty to the Queen and respect for the Governor-General as her representative and a member of an ancient and noble family, His Excellency made an able response.

New York, October 25 .- A cable special from London says: Lord Derby, Colonial Secretary, has written a letter to the chief promoter of the New Guinea Exploration and Colonization Company, emphatically protesting against further encroachments upon the rights of the inhabitants of that island. He calls attention to the fact that the Ministry has on several occasions condemned the project of annexing any of the South Pacific islands to Australia, or in any manner assuming to establish control of any of these islands at variance with their present system of government. In some of these, particularly the island of Samoa, German, British and American Consuls have at times exercised their influence, jointly or separately, and treaties exist which practically grant to certain of these islands the rights of independent States. Therefore, If General McIvar persists in the forcible seizure of any of the specified territory, or in any manner disregards the rights of the natives or colonists now occupying these islands, even though such operations may be conducted under the British flag and ostensibly in British interests, the Government will an once instruct the British Commissioner and commander of the Western Pacific squadron to interfere and forcibly put down any further movement toward the prosecution of the scheme. This will be done, says Lord Derby, so effectually as to discourage any further attempts to set at defiance the expressed policy of the home Government.

Paris, October 30 .- In the International Labor Conference a great diversity of opinion prepails among the delegates. The subject of international legislation was resumed to-day, but the discussion degenerated into generalities. The French delegates urge State intervention. The workingmen, it is said, ought to form a political party and if necessary resort to force. Henry Broadhurst, Preisdent of the Conference, demanded complete liberty of action and the suppression of coercive solicitations. He argued that complete harmony existed in England between the working and middle classes. He advocated legislation only for the protection of women and children and repudiated violence. Broadhurst added that two English Cabinet Ministers supported trades unions and said that he only regretted that France was not similarly sit-

London, October 31 .- At 8 o'clock last evening a terrible explosion occurred near the Praed street underground station, on the Metropolitan Railway. At the first alarm a strong cordon of police was summoned to preserve order, to keep the way clear and to convey the wounded people to the hospital. The passengers on the train at the scene of the explosion say that there was a sudden darkness, the gaslights from the front to the rear of the train being put out. The window-glass was broken and splinters of wood flew about the cars, cutting and wounding many passengers. All this occurred in a moment and for awhile confusion reigned supreme. After leaving the station the train traveled steadily ahead, although the concussion smashed nearly all the lamps in the Praed street station and caused much damage to the permanent way. When the train reached the next station, that o Edgeware road, the first effort was made to rescue the wounded. Some were dreadfully burned, but more prostrated by fright,

Almost simultaneously with the Praed street affair a violent explosion occurred on the underground railway betwen Charing Cross and Westminster stations. The windows of the signaling stations in the tunnel were shattered, and at Charing Cross the glass roof of the station partly collapsed. The report is described as being like that of artillery. The effects were similar to those of the Praed street explosion. Carriage lamps, windows, etc., were smashed. All traffic was suspended for awhile.

The Goulois says : In view of the contingeney of war between France and China, several French ironclads have been ordered to be put in readiness to reinforce the French squadron in Chinese waters.

Hongkong, October 29.—The defenses at Canton are being actively pushed forward. Large quantities of arms and ammunition were conveyed to that city yesterday in Chinese gunboats, An immediate attack on Chinese ports is not generally expected. It is thought that for some time to come fighting will be confined to Tonquin, but it seems inevitable that hostilities will eventually extend to China. It is thought that a French reverse in Tonquin will be fraught with serious results to foreigners in China. Advices from the interior show that political excitement is spreading. , The authority of the Imperial Government is much weakened in many districts. A wave of anti-foreign feeling is passing over the country.

Rome, October 24 .- An explosion occurred to-day in a room of the royal palace at Naples, in which repairs are being made. Two workmen were seriously injured and the room set on fire. The flames were promptly quenched, Great excitement prevailed and crowds of people flocked to the plazza of the palace. The cause of the explosion has net been ascertain-

5. Petersburg, October 25.-The latest Nihilist proclamation is being extensively circulated. It demands of the Czar to summon representatives of the Russian people and asks for full amnesty, freedom of the press, freedom of speech and the right to hold public meetings as the only means of preventing revolution. Pitiless vangeance is threatened if the demands of the Nibilists are disregarded.

London, October 29.-Despite the disapproval of Derby, the Colonial Minister, of the exploration of New Guinea, the projectors of the expedition will proceed by steamer, leaving England before Christmas. They will take six months' provisions, tents, arms, etc. The subscriber of £100 to the expedition will secure a land warrant entitling him to 1,000 acres.

The treaty of peace between Chile and Peru was signed at Aucon on October 20th.

London, October 24th, -Sir Moses Montifiore received numerous congratulations from all parts of the world yesterday, on the occasion of entering on his one hundredth year, Among the letters was one from the Prince of Wales.

> Paris, October 29 .- The French forces in the encounter in the vicinity of Ha-Noi, in the early part of September, met the Chinese regulars, well officered and armed. After a conflict of three days, during which the French took some of the enemy's works, they withdrew, leaving Haiphong still in the hands of the enemy. Letters from Saigon state murders and cruelties were committed near Hue, on the occasion of the capture by the French sailors. Admiral Courbet directed an official order that there should be no quarter given to the men, women or children. Three hundred families, fleeing to the bay of Thuan, were all shot. One hundred and fifty more, drifting in a junk, without weapons or oars, were also massacred. The Figaro declares that Admiral Courbet, at the instance of Commissioner Harmand, allowed the perpetration of such acts in order to terrorize the Anamites. The Temps denies that Admiral Courbett gave such orders, but admits 1,200 of the enemy were killed at Thuan.
